

Commercial Offices & Mixed Use

CLINTON SQUARE BUILDING

Ernstrom and Dreste's Office Renovation completed by Christa Construction took place on the 9th floor of the Clinton Square Building located in Rochester, NY. The interior was transformed by starting with a total demolition of the existing office space and modified to the specifications requested by the law firm. New partitions, HVAC, plumbing, electrical, ceilings, soffits, paint and millwork were installed. Also, new flooring, standing and running trim, doors, frames, hardware, glass and glazing were included in the renovation.
